NASA SEWP VI OVERVIEW

NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup", provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support—more than 50,000 orders a year.

FAIR OPPORTUNITY

FAR 16.505(b) (1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding $10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer (CO) and that the CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP Quote Request Tool (QRT) will automatically include the Contract Holders within a selected Group or based on a suggested source.

ABOUT BRIDGEPHASE LLC

BridgePhase LLC delivers secure, innovative IT solutions and services that strengthen operational performance and accelerate digital transformation. With extensive experience supporting federal civilian and defense agencies, BridgePhase combines technical expertise, Agile delivery practices, and mission understanding to provide scalable, reliable, and cost-effective solutions across complex government environments.

BridgePhase LLC

Category B Contract
80TECH26D1540

Category C Contract
80TECH26D1133

November 2026 - 2036

Main Office Address:

As a NASA SEWP VI contract holder in Categories B and C, BridgePhase offers federal customers a streamlined acquisition path to comprehensive technology services supporting both enterprise-wide modernization and mission-specific operational requirements.

Under **Category B**, BridgePhase provides enterprise IT services spanning application development and modernization, cloud solutions, cybersecurity, systems integration, data management and analytics, intelligent automation, and ongoing operations and maintenance. Our integrated delivery approach emphasizes security, interoperability, scalability, and continuous improvement to strengthen enterprise performance and reduce technology risk.

Under **Category C**, BridgePhase delivers mission-focused technology services tailored to specialized agency requirements, including mission application development, secure systems engineering, DevSecOps, automated testing, AI-enabled solutions, and integration of mission-critical systems. Our teams combine technical innovation with disciplined program management to deliver responsive solutions aligned with agency priorities and operational objectives.

WHAT'S IN SCOPE FOR SEWP VI?

SEWP is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC / AV) solutions and services. Technology is always changing and for that reason SEWP's processes enable our Contract Holders to add new commercial technology and IT services to their contract daily, as requested by our customers. The focus of SEWP is on the full suite of technology offerings that simplify Governmental access and Industry offerings across the entire ITC/AV solutions and services landscape. SEWP is composed of three scope categories detailed below. If you would like SEWP to determine if your requirement is within scope of the SEWP VI contract, please send an overview and/or bill of materials (BOM) to help@sewp.nasa.gov and we will quickly review and provide feedback. The SEWP Contracts were awarded by scope category:

- Category A - ITC/AV Solutions
- Category B - Enterprise-Wide ITC/AV Service Solutions
- Category C - Mission-Based ITC/AV Service Solutions

ORDERING PROCESS

Each Agency establishes its own procedures and forms for issuing Purchase Requests (PRs) and Delivery Orders (DOs) under NASA SEWP. Typically, an end-user submits a PR with funding information to the Agency's procurement office, which issues the DO using any valid federal agency form and DO number. The NASA SEWP Program Management Office (PMO) reviews, processes, tracks, and forwards issued DOs to Contract Holders but does not issue orders directly. Agency COs are responsible for complying with agency-specific procurement policies. Intermediary procurement offices are not required unless mandated by agency policy. All order modifications must also be routed through the SEWP PMO.
